Career Objective

Final-year Computer Science Engineering student (graduating 2027) with hands-on experience in Java, Python, and full-stack development through internships and independently built projects. Seeking a Software Engineer role to apply strong foundations in data structures, algorithms, and object-oriented programming toward designing and validating reliable, scalable software

Education

Bachelor of Technology in Computer Science Engineering
Bansal Institute of Science and Technology, Bhopal, Madhya Pradesh || 2023-Present || Currently in 7th Semester || CGPA: 7.19

Higher Secondary (12th)
S.T Paul's School & Junior College, Nagpur || Year: 2021-2022 || Percentage: 68.83%

High School (10th)
Year: 2019-2020 || Percentage: 79%

Technical Skills

- **Programming Languages:** Python, Java
- **CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Network
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Node.js, FastAPI, TensorFlow
- **Tools & Frameworks:** Visual Studio Code, Git, GitHub
- **Database:** MySQL, MongoDB, REST APIs

Projects

- **Khet-Saathi – AI Assistant for Farmers:** Built a full-stack platform (React, FastAPI, TensorFlow) achieving 95% accuracy in crop disease detection, with Hindi voice support for farmers. Designed, tested, and documented a 7-collection MongoDB backend. Evaluated two satellite-monitoring approaches through structured testing and selected the higher-accuracy option — demonstrating strong problem-solving and technical evaluation skills..
- **Green Quest App:** Developed and tested a full-stack application using React, Node.js, Express, and MongoDB Atlas. Documented features, debugged and resolved deployment issues on Vercel and Render.

Internships

- **Java Developer Intern - Codec Info Technologies (Completed):** Built and debugged Java programs applying core object-oriented programming principles; performed unit testing and documented code functionality as part of a structured software development training track.
- **AI Intern - Microsoft & SAP-AICTE (TechSaksham), Edunet Foundation (Completed):** Completed a 4-week AICTE-certified internship on AI technologies under industry mentorship; presented project prototype and earned certification from Microsoft, SAP, and AICTE.

Certifications

JavaScript Essentials 1 - Cisco Networking Academy (November 2024) || SQL – Hacker-Rank (March 2026)
IoT - Cisco Networking Academy (September 2025) || Generative AI Professional - Oracle (October 2025)
Angular - Infosys Springboard (April 2025) || Learning Microsoft Power BI - Infosys Springboard (April 2025)

Additional Activities

- Presented Khet-Saathi at a Hackathon; also participated in a second Hackathon securing **11th rank** as a team.
- Represented a team in a Shark Tank-style business pitch competition and participated in scriptwriting/stage events, demonstrating communication and teamwork.
